

Pham Van Kafka

Email: kafka@email.com | Ho Chi Minh City

Summary

Backend engineer with 4 years of experience in distributed systems.

Proficient in Golang, Kafka, and gRPC — skills not in default whitelist.

Technical Skills

Languages: Go, Python, SQL

Backend: Kafka, gRPC, REST API, Microservices

Database: PostgreSQL, Redis, Cassandra

DevOps: Docker, Kubernetes, Git

Experience

Backend Engineer - DistributedCo (2020 - Present) - 4 years of experience

- Designed event-driven architecture using Kafka with 1M+ messages/day
- Built high-performance services in Go (Golang) with gRPC communication
- Managed PostgreSQL and Redis clusters for low-latency data access

Note for tester

Create a JD requiring 'Kafka' and 'Go' skills first.

Expected: Kafka and Go detected IF JD skills are passed to extractor.

If not detected -> get_scan_skill_keywords() integration is broken.
